

10 November 2022

Dear Customer

## Working in your area

Dear Customer

As you may know, Northern Powergrid's £30 million investment to improve the reliability and resilience of the electricity network serving Bradford has been ongoing since September 2019.

The investment focuses on replacing five of the major circuits that supply electricity to approximately two thirds of Bradford's homes and businesses. This will ensure that the local electricity network is capable of meeting the existing demand for power as well as any future increase in demand.

We wrote to you last week to let you know that, as part of the final sections of work we need to complete, **we'll be closing one lane of a road near your home/premises**. We're writing to you again to let you know that some of the information we provided has changed.

### Where and when we're working

The westbound lane of A6177 Queen's Road will be closed between the junction of King's Road and the junction of Midland Road from Monday 14 November until Wednesday 7 December 2022. The eastbound lane will remain open.

A signposted diversion will be in place along King's Road, A6037 Canal Road, A6181 Hamm Strasse and Manningham Lane. See diversion map over the page.

### Additional information

We're not planning to turn off anyone's power, there will be full access for emergency vehicles and full pedestrian access through the closed section of road. We'll work with businesses to ensure they can continue to receive deliveries.

### Thank you

We thank you in advance for your assistance and apologise for any inconvenience caused while we complete this important work on the electricity network in your area.

**If you have any questions, please contact our contractor Excalon's project manager, Paul McGrath. Email: [Paul.McGrath@excalon.com](mailto:Paul.McGrath@excalon.com) or call (Monday to Friday 8am-5pm only): 07760 555660.** Out of hours contact details can be found over the page.

Yours faithfully

**Sharon Incerti**  
Project Manager
